

JULIA KAPLAN EXECUTIVE SEARCH

ABOUT JULIA KAPLAN

Julia Kaplan has over 15 years of experience in the life sciences field, working as both a research scientist and retained executive search consultant. With her combined background in industry and executive search, Ms. Kaplan excels at identifying and matching executive talent required for the life sciences industry. Ms. Kaplan's client list ranges from venture capital-backed biotechnology start-ups to multinational pharmaceutical companies. She has successfully completed C-level, Vice President and Director level searches.

Prior to establishing her own retained executive search firm, Ms. Kaplan served as a Principal in the Life Sciences practice at Slayton International, ranked the 20th largest U.S. retained executive search firm in 2004. Previously, she spent six years at Heidrick & Struggles, Inc. where she was a member of the Global Healthcare Products search practice. Before joining Heidrick, Ms. Kaplan served as an Associate and Director of Research at Howe-Lewis International, a boutique executive search firm specializing in the life sciences.

Before entering the executive search profession, Ms. Kaplan held scientific research positions at two early stage biotechnology organizations, Hybritech, Inc. (acquired by Eli Lilly) and Affymax, Inc. Ms. Kaplan received her Bachelor of Science degree in Physiology and Neuroscience at the University of California, San Diego.
